B. Background Information about Tufts Health One Care's Network Providers

B1. Key terms

This section explains key terms in our Directory.

- **Providers** are professionals such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, Long-term Services and Supports (LTSS), supplies, drugs, equipment, and other services.
    - The term **providers** includes facilities such as hospitals, clinics, and other places that provide medical services and medical equipment. It also includes LTSS providers that you may use as a Tufts Health One Care member.
    - Providers that are a part of our plan's network are called **network providers**.
- **Network providers** have contracted with us to deliver services to members of our plan. Network providers participate in our plan. That means they accept members of our plan and provide services our plan covers. When you use a network provider, you usually pay nothing for covered services.
- A **Primary Care** Provider (PCP) is a doctor, nurse practitioner, or physician assistant who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
    - Oncologists care for patients with cancer.
    - Cardiologists care for patients with heart conditions.
    - Orthopedists care for patients with certain bone, joint, or muscle conditions.

- You may need a **prior authorization** for a specialist or someone that isn't your PCP. A **prior authorization** means that **Tufts Health One Care** must give you approval **before** we'll cover a specific service, item, or drug or an out-of-network provider. If you don't get a referral or prior authorization, Tufts Health One Care may not cover the service, item, or drug.
    - Referrals or prior authorization **aren't** needed for:
        - emergency care;
        - urgently needed care;
        - kidney dialysis services that you get at a Medicare-certified dialysis facility when you're outside the plan's service area; or
        - services from a women's health specialist.
        - family-planning services from any MassHealth (Medicaid)-contracted family-planning services provider; **or**
        - an active course of treatment within the first 90 days of you joining Tufts Health One Care (Continuity of Care period).
    - Additionally, if you're eligible to get services from Indian health providers, you may use these providers without a referral. We must pay the Indian health provider for those services even if they're out of our plan's network.
    - More information on referrals and prior authorization is available in **Chapter 3** of the *Member Handbook*.
- You'll also be assigned a Cityblock Care Coordinator, as part of your Care Team. Your **Care Team** is a group of people that you choose with the help of your Care Coordinator. The team may include family, trusted friends, advocates, or anyone from the list below based on your care plan needs. Everyone on the *care team* works together to make sure your care is coordinated. This means that they make sure that you get all of the tests, labs, and other care that you need, and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that they can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers. Members of your care team may include:
    - A **Care Coordinator** that helps you manage your medical providers and services. We work with Cityblock Health to provide you with care coordination services. Your Cityblock Care Coordinator is the one main person who works with you, Tufts Health One Care, and your care providers to make sure that you get the care you need.

- Your **Primary Care** Provider
- A **Long-term Supports (LTS) Coordinator** to help you find and access support services available to you in the community. Both the Care Coordinator and LTS Coordinator can work as a part of your Care Team to make sure you get the care you need.
- **Specialists and other health care providers** who are involved in caring for you. Some examples are behavioral health providers or physical therapists.

Your Care Team will also help you find other providers of medical, behavioral health, or Long-term Services and Supports (LTSS) if you need a specialist or other health care provider. That way, you'll get the right provider to help you with your concerns.

B2. Wait times for primary care and behavioral health

- We must provide you with access to primary care and behavioral health services within the following timeframes: immediately for urgently needed services or an emergency;
- within 7 days for services that aren't an emergency or urgently needed, but you require medical attention; or
- within 30 days for routine and preventative care.

B3. How to choose a Primary Care Provider

First, you will need to choose a Primary Care Provider (PCP). You can choose any PCP in our network who is accepting new members.

- To choose a PCP, refer to the list of providers in **Section C**and choose a provider:
  - that you use now, **or**
  - who has been recommended by someone you trust, **or**
  - whose offices are easy for you to get to.
- If you don't choose a PCP in our network, Tufts Health One Care will choose one for you.
- If you want help in choosing a PCP, please call Member Services at 1-855-393-3154 (TTY: 711) *or* the numbers listed at the bottom of this page, seven days a week, from 8 a.m. to 8 p.m. (Please note: Our hours shift to Monday through Friday, from April 1 through September 30). The call is free. Or visit TuftsHealthOneCare.org.
- If you have questions about whether any service or care that you want or need is covered, talk to your Care Team or call Member Services 1-855-393-3154 (TTY:

711) *or* at the numbers listed at the bottom of this page and ask **before** you get the service or care.

B4. How to access Long-term Services and Supports (LTSS) providers

As a Tufts Health One Care member, you'll be able to get Long-term Services and Supports (LTSS) if you need them, such as help people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Most of these services are provided at your home or in your community but could be provided in a nursing home or hospital.

If you need LTSS, an LTS Coordinator can help you and your Care Team determine what options are available to support you in the way you want. You always have the right to have an LTS Coordinator on your Care Team.

Who should a member contact to get LTSS?

A LTS Coordinator is a resource you may have on your Care Team. This person is an expert in LTSS in your area. A LTS Coordinator helps you get services that keep you living independently in your home.

During the first 90-days on this plan, your Cityblock Care Coordinator works with you to have your health assessment completed. At that time, they can work with you to select a LTS Coordinator. If you would like a LTS Coordinator to be present at your initial assessment, your Care Coordinator will arrange to have one present.

If you decide not to include a LTS Coordinator on your Care Team, you can request one at a later time. You can get a LTS Coordinator at any point during your enrollment. Contact your Cityblock Care Coordinator to learn more about LTSS.

How can a member get behavioral health services?

Your Care Coordinator can help you facilitate access to behavioral health services in your area.

How can a member get transportation services?

Transportation benefits are covered, and we will assist you in getting services. Your Care Coordinator will discuss your transportation needs as part of your assessment and care planning process. You may refer to Chapter 4 in your *Member Handbook* for more information.

B5. How to access Tufts Health One Care's network providers

You must get all of your covered services from providers within our network. If you use providers who aren't in Tufts Health One Care's network **(without prior authorization), you may have to pay the bill.**

A **prior authorization** is an approval from Tufts Health One Care to seek services outside of our network or to get services not routinely covered by our network **before** you get the services.

The only exceptions to this rule are when you need urgent or emergency care or dialysis and can't get to a provider in the plan, such as when you're away from home. You can also go outside the plan for other non-emergency services if Tufts Health One Care gives you permission first.

- You may change providers within the network at any time during the year. If you've been using one network provider, you don't have to keep using that same provider.
- Tufts Health One Care works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide.
- If you need a provider and aren't sure if they offer the accommodations you need, Tufts Health One Care can help you. Talk to your Care Coordinator for assistance.
